Project Name	personal assistance for seniors who are self-reliant
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Elderly people also skip doses of their prescribed medications. They struggle to recall which medication has to be taken at what time. For those who use medications, there is a need for individuals. They should constantly be reminded to take their medications on time.
2.	Idea / Solution description	Our medicine leftover kit may be programmed. It makes sure that the right amount of the medication is taken and reminds people to take a certain pill at a specific time. The system may send an SMS message to the faraway patient after a certain amount of time to remind them locally or remotely.
3.	Novelty / Uniqueness	Users can improve their physical health by intake of medicine on time.
4.	Social Impact / Customer Satisfaction	well treatment healthcare services , emergency time best services all needs
5.	Business Model (Revenue Model)	We can provide the automatic Medicine Remainder kit.
6.	Scalability of the Solution	Improvement and healthcare while making for a more customized.It is also capable of alerting on in take of medicine.
